

# LAFORCE Products and Services

 <p><b>Doors</b> – LaForce supplies doors in a variety of make, model, and style for your facility, including wood, stainless steel, hollow metal, lead lined, fire-rated, bullet resistant, and more.</p>	 <p><b>Building Specialties</b> – Our Division 10 experts can help you with all your building specialty needs, including toilet partitions, lockers, bath accessories, fire extinguishers, motorized shades, access panels, and more.</p>
 <p><b>Frames</b> – Our manufacturing facilities allow us to create custom frames in-house that meet code requirements and match your building's appearance.</p>	 <p><b>Architectural Services</b> – Rely on LaForce architects for technical advice, in-depth knowledge of Divisions 8, 10, and 28, AIA-accredited continuing education classes, and consultation services.</p>
 <p><b>Hardware</b> – LaForce supplies hardware that is code compliant, functional, and aesthetically pleasing; for both new and existing buildings.</p>	 <p><b>Fire Door Inspection</b> – Fire door inspections can protect people in your facility and help avoid potential liability issues. LaForce fire door inspectors will develop a custom report regarding your inspection and provide guidance if they see any issues.</p>
 <p><b>Keying</b> – When it comes to keys, LaForce's team of keying experts think about all the needs of your facility, then they design a custom keying system for the building.</p>	 <p><b>Pre-Install &amp; Install</b> – Pre-Install is when our trained installers install hinges, door closers, and more to doors-prior to shipping-to save time and money. With our install service, installers will travel to the jobsite and will expertly handle the materials.</p>
 <p><b>Electronic Security Systems</b> - Access control, video surveillance, alarm and intercom systems, and more. Our Electronic Security Systems team will work with you to find the best security products to keep your facility and occupants safe, while keeping your budget in mind.</p>	 <p><b>Pre-Finishing</b> – Our painters provide quality and efficient paint services in a controlled environment to prevent rust and corrosion.</p>
